

# Do you know about respiratory syncytial virus (RSV)?

RSV is a contagious **respiratory virus**.

---

Some ways you can help protect yourself and others against RSV are:

- washing your hands often
- coughing or sneezing into the crook of your elbow, your sleeve, or a tissue
- sanitizing/cleaning surfaces that are touched often
- keeping your kids home from school or daycare if they or other children are sick
- avoiding close contact with others
